What is BaZi?

BaZi (Destiny) is your Heaven Luck. It literally means Ba (eight) and Zi (characters) because BaZi translates the birth information of your time, day, month and year into four pillars with two characters in each pillar making eight aspects creating your Destiny Code. It is also called *8 Character Analysis or Four Pillars of Destiny*.

Your BaZi chart reads like the story of your life where you are the star. It shines a spotlight on your true nature so you can maximize your talents, excel at work, strengthen your relationships, overcome weaknesses and make informed decisions based on luck cycles. Understanding your BaZi will shed light on what makes you happy and what is achievable.

A person's entire life - the pitfalls, trials, tribulations, wealth, status, personality characteristics, talents, abilities - are all encoded within the BaZi chart. -Joey Yap

Heavenly Luck

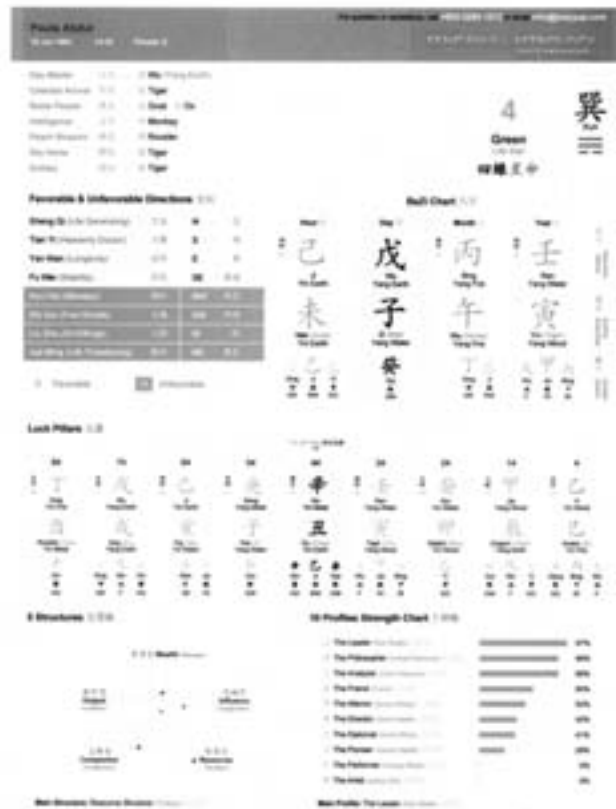

There are 500 different combinations of characteristics and unlike profiling forms or questionnaires similar to Myers-Briggs, BaZi is more accurate because there is no faking it.

There are 500 combinations of characteristics.

What is BaZi?

To create your BaZi chart go to www.masteryacademy.com and click **Plot BaZi Profiling & Life Star Chart** in the upper right corner. It will ask you sign up (free) and from here you can plot your chart. It will look something like Paula Abdul's chart below. To make sure colors are correct use PRINT TIPS in the upper right corner before PRINT BUTTON. (of course this one is a b&w print.)

Heavenly Luck

The top BaZi Chart is the NATAL CHART where we find 4 columns and each corresponds to the hour, day, month and year of a person's birth.

The lower sections represent 5 STRUCTURES and 10 PROFILES, describing how the elements of the chart interact with each other.

**I mostly use the Design Your Destiny™ system created by Joey Yap.*

What is BaZi?

Stay with me here. I don't want to lose you. We are going to focus on the most important reference point of a BaZi chart called the **DAY MASTER**. The Day Master is the top element located in the **DAY PILLAR**.

The Day Master is located under the DAY pillar. It will be a shaded area on your chart because it is the most important element.

My big ah-ha moment came during my first BaZi reading with my teacher. She did not know me and gave me the basics of my chart saying that as a Ren Water I was a mover and shaker and the things I do should touch shore-to-shore. Well, I got goose bumps because over the years when people asked me why I lived in San Francisco and then New York City and ending up in Los Angeles I would answer, "Because I need to live where the things I do can touch shore-to-shore." Those exact words! And now I knew why that was so important to me. BaZi goes to the depth of who you are and why you do the things you do and when you truly know yourself - a whole new chapter of your life opens up where you are in control making smart choices.

5 Structures

Moving on, let's layer the reading. Look to the bottom left diagram in your chart that reads, *5 Structures*. The Structures are how you understand your behavior and attitude. It reveals your character traits. Structures show how you act towards other people and the events in your world. You can see by the star-burst diagram where you excel and what makes you unique.

This is Lady Gaga's chart and you can see she is a strong WEALTH STRUCTURE. What it tells us is that even though she is a pretty Xin Metal (her Day Master) who likes to shine, she has her eye on the money and is a natural entrepreneur!

take the structure quiz

You may already know your Structure just by knowing yourself, but as an exercise take the quiz below and see if it matches your chart.

_____ 2. Are you an idea person? Do you enjoy performing and being the center of attention? Do you live in the moment and start a lot of creative projects? *Are you a CREATOR?*

_____ 3. Are you royal and diplomatic? If brought in on a chaotic situation, do you enjoy creating order? Are you a rule-follower who sometimes likes to rock the boat? *Are you a SUPPORTER?*

business owner vs employee

Here is what I know for sure. There is no one-size-fits-all business and life coaching because each person is unique. BaZi is a powerful tool for personal transformation. When you are ready to work on yourself, I invite you to create a proactive game plan based on what you have learned about yourself in this book.
